AMENDMENTS TO THE SPECIFICATION

Please amend the paragraph beginning on page 3, line 4, *as reflected in the October 6, 2004 response*, with the following amended paragraph:

(1)   At FCD (Final Committee Draft) concerning Part-1 of JPEG-2000, there are two filters for wavelet conversion which is presently defined in July 2000. One is a 5×3 filter of an Integer type for reversible conversion, and another filter is a 7×[´]9 filter of a Float type for irreversible conversion.
